<b>Module title</b>	<b>Husbandry of Reptiles in The Netherlands</b>		
<b>Date and duration</b>	4 weeks between 12th June and 7 <sup>th</sup> July 2017	<b>Total amount of guided learning hours</b>	120 hours
<b>Learning hours at school</b>	60	<b>Learning hours practice (at a company)</b>	60
<b>EQF-level</b>	4		

#### Learning outcomes

She has, upon completion of this unit, shown that she is able to:

LO1: Identify the different modern reptilian orders and identify potentially dangerous reptile species

LO2: Keep reptiles in captivity

LO3: Feed reptiles in captivity

LO4: Describe how to breed a selected reptile species (n/a)

LO5: Carry out routine tasks in a safe and welfare friendly manner

LO6: Take care of facilities, equipment and living areas of the reptiles

She has successfully passed the reptile assessment at the workplace and the vocational reptile school exam in The Netherlands.
