

# Office Forms

## create surveys and polls

**School subject(s):** universal

**Availability:** Part of Office 365

**Costs:** The Costs depending on the package

**Usage:** online

### Description:

- Create shareable surveys, quizzes, polls and exam questions in minutes
- Internal and external people are invited to fill it out. A Microsoft account is not required for external users.
- Completing the quiz or survey is possible in any web browser and of course also on the mobile device.
- Once the results have been transmitted, various evaluations can be carried out and analysed accordingly.
- With quizzes, students see their results directly.
- Possibilities of different question types (selection, text, valuation, date ...)

### Evaluation from practical experience:

- Easy to handle
- Direct overviews of the learning status of the students.
- Can be used individually in each subject.
