

Creating worksheets online

The free tool Tutory makes it easy for teachers to create worksheets. The materials created with Tutory are available under a Creative Commons licence as Open Educational Resources (OER) for other teachers and can be adapted with a modular system.

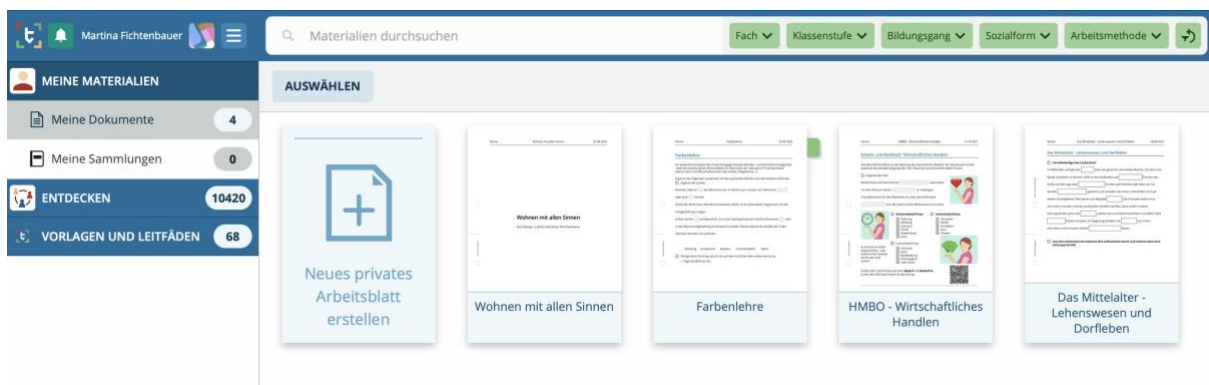

Registration

Tutory is aimed at teachers in schools and adult education. In order to be able to use the platform, registration is required, stating the name and a user name, the e-mail address and details of the subjects and types of school taught.

Creation of worksheets

After registration, it is possible to create your own worksheets as well as edit existing published worksheets.

All the worksheets you have already created are saved in the account and can be easily edited and shared again at any time.

The screenshot shows the Tutory user interface. At the top, there is a search bar labeled 'Materialien durchsuchen' and several filter buttons: 'Fach', 'Klassenstufe', 'Bildungsgang', 'Sozialform', and 'Arbeitsmethode'. On the left side, there is a sidebar with navigation options: 'MEINE MATERIALIEN' (Meine Dokumente: 4, Meine Sammlungen: 0), 'ENTDECKEN' (10420), and 'VORLAGEN UND LEITFÄDEN' (68). The main content area is titled 'AUSWÄHLEN' and displays a grid of worksheet thumbnails. The first thumbnail is a blue button labeled 'Neues privates Arbeitsblatt erstellen'. The other thumbnails are: 'Wohnen mit allen Sinnen', 'Farbenlehre', 'HMBO - Wirtschaftliches Handeln', and 'Das Mittelalter - Lehnswesen und Dorfleben'.

Licence management

If you want to use third-party content in your worksheet, you have the option of using openly licensed works (for example, with a Creative Commons licence) for your worksheets. With the help of the URL, the image can be quickly and easily integrated into Tutory. However, in order to also correctly name the source and the licence, it is necessary to insert the relevant information in the window entitled Manage Licences.

Download

When the worksheet has been completed and all licence information has been entered, it can be published. Other Tutor users can then view and adapt it. If you do not want to publish your work (yet), you can download it as a PDF.

Tutory's modular system makes it an easy and intuitive tool to use. The website can be accessed from any PC with internet access and no additional software is required. The licence management makes it easy to work with OER materials in a legally secure way.

Tips & tricks

Material needed: Computer with internet access; account at tutory.de

Duration: depending on the amount of material between 15-30 minutes

German but easy to handle
